# Rules!

1. On the Jeopardy board there will be six categories with questions that amount to \$100, \$200, \$300, \$400 and \$500. The prices equate to the relative difficulty of the question.
2. Each team will alternate in choosing whatever available category and dollar amount they would like to answer
3. If you get the question right, your team earns the points, if not that number of points will be deducted from your team's total. Now, the question is up for grabs. The team that puts their hand up first can answer the question.
4. If none of the contestants give a correct response, the host reads the correct response and the contestant who has most recently given a correct response to a previous answer chooses the question.
5. The team with the most money at the end of the game wins!

The background is a vibrant purple. At the top center is a blue globe with a white grid pattern, surrounded by several white four-pointed stars. To the left of the globe is a large yellow balloon, and to the right is a large red balloon. Both balloons have long, wavy streamers trailing down. Small pieces of yellow and red confetti are scattered throughout the upper half. In the lower half, there are four hands reaching up from a light blue curved surface. The hands on the left and right are holding yellow maracas. The hands in the center are open, palms facing up. The hands are colored light blue and dark blue.
